

Ultra-portable USB device offers access to the fastest 3G network in U.S., plus a storage drive.

AT&T USBConnect Mercury

Access the Internet—anywhere your AT&T wireless phone works.

- Easy to use: AT&T's USBConnect Mercury is a plug-and-play solution that enables access to email and the Internet anywhere AT&T provides data coverage.
- Increased productivity: Getting to the Internet when you want it, where you want it means you can have increased personal free time.
- Stay connected: Respond to emails, access the Web and stay in touch with the latest news and current events.
- Save time and money: Predictable rate plans can eliminate expensive pay-per-use Wi-Fi sessions and the need to plan ahead to find hotspots.

Flexibility, compatibility and high performance in a small package.

- AT&T USBConnect Mercury users enjoy mobile broadband connection speeds on AT&T's 3G network, with the freedom to stay connected outside the home or office environment in over 300 metro areas nationwide.
 - Download a 1MB file—a typical email with PDF attached—in about 10 seconds
 - Upload a 1MB file in about 15 seconds
- Mercury's small form factor is packed with the latest in wireless data technology, enabling better performance on AT&T's expanded 3G/HSPA network.

- Mercury is backwards-compatible to 2.5G/2G networks to help ensure the best combination of performance and coverage.
- The integrated microSD card slot provides users with a backup and transfer solution, eliminating the need for additional hardware.

Get up and running fast with pre-installed software.

- Plug-and-play installation for Microsoft Windows Vista, XP and 2000 notebooks.
- Apple Mac OS support (v10.4 or later) via download from www.sierrawireless.com/support

View and download wireless data anywhere within AT&T's network.

- Works internationally in more than 145 countries.
- AT&T Communication Manager 6.9.100 enables Windows users to automatically switch to the fastest network connection available.
- Unlimited usage in more than 17,000 Wi-Fi hotspots in the U.S. with a qualifying DataConnect plan and a Wi-Fi enabled laptop.

actual size

AT&T 3G Mobility

The ultra-compact AT&T USBConnect Mercury keeps you connected to the Internet and email on the fastest 3G network in the U.S.

AT&T USBConnect Mercury Specifications

Key Features:

- Familiar USB plug-and-play capability—automatic installation of AT&T Communication Manager software
- Compact HSPA design ideal for on-the-go use outside a home or office environment
- Seamlessly works between AT&T's 3G BroadbandConnect and EDGE networks
 - Mercury is also backwards-compatible to 2.5G/2G networks
- Integrated microSD card slot for a convenient and portable storage solution (microSD card sold separately)
- Global compatibility based upon the global standard for wireless—GSM

Network Support:

- HSPA (850/1900/2100 MHz)
 - Typical download speeds of 700 Kbps–1.7 Mbps*
 - Typical upload speeds of 500 Kbps–1.2 Mbps*
- EDGE/GPRS (850/900/1800/1900 MHz)
 - EDGE/GPRS class 12—typical downlink speeds of 70–135 Kbps*
 - Typical uplink speeds of 60–80 Kbps*

Physical Features:

- USB 2.0 connectivity
- Internal antenna
- Integrated microSD card slot
- Dimensions: 3.2" L x 1.0" W x 0.53" H
- Weight: less than 1 ounce
- Power consumption: 5.0V
- Multi-color LED status indicator

OS Support:

- Microsoft Windows Vista, XP and 2000 (plug-and-play)
- Mac OS X (version 10.4 or later) via download from www.sierrawireless.com/support

Includes:

- AT&T USBConnect Mercury
- Connectivity software
- Carry strap
- 3G SIM card

 SIERRA WIRELESS

The new  **at&t**
Your world. Delivered.

*BroadbandConnect speed claims based on our network tests without compression using 3MB data files for download and 2MB data files for upload. 3G devices not enabled with HSUPA support typical upload speeds of 220–320 Kbps, based on our network tests without compression using 500KB data files for upload. Actual throughput speed varies.

IMPORTANT INFORMATION: Coverage not available in all areas. Equipment price and availability may vary by market and may not be available from independent retailers. Specifications subject to change. Up to \$36 activation fee applies. Certain benefits and service features may require you to purchase additional hardware, software, obtain network connection, pay monthly access and/or per use charges. Subscriber must live and have a mailing address within AT&T's owned wireless network coverage area. This device is sold for use on AT&T's wireless systems. It may not be compatible with other wireless systems. AT&T BroadbandConnect download speeds only available in AT&T BroadbandConnect markets. Network speed is no indication of the speed at which your device sends or receives data. Actual speeds depend on distance from cell site, network availability and traffic, device, applications, tasks, file size and other factors. Availability, speed of delivery and timeliness of information is not guaranteed. Terms of service will vary based on selected service plans. Other conditions and restrictions apply. Early Termination Fee: None if cancelled in the first 30 days; thereafter up to \$175. Service defaults to national EDGE/GPRS network, where available, if AT&T 3G/BroadbandConnect network is not available. Other conditions and restrictions apply. GSM is a trademark of the GSM Association. Sierra Wireless is a trademark of Sierra Wireless, Inc.
