

motorola tundra™ VA76r

World Capable

The **Motorola Tundra VA76r** makes it easier to keep moving in the real world. You can drop it, use it in the rain or get it dirty, and it'll all be okay. Push-to-talk, high-speed web connection, email and IM keep you more in touch than ever. If you live in a world where things happen and stuff needs to get done, you'll be glad to have this device in your pocket.

Certain mobile phone features may not be available throughout the entire network or their functionality may be limited. All features, functionality and other product specifications are subject to change without notice or obligation.

(1) Network and/or SIM card dependent feature, not available in all areas. Airtime, data charges, and/or additional charges may apply.
(2) The unauthorized copying of copyrighted materials is contrary to the provisions of the Copyright Laws of the United States and other countries. This device is intended solely for copying non-copyrighted materials, materials in which you own the copyright, or materials which you are authorized or legally permitted to copy.
(3) This device supports Bluetooth® A2DP-Source, AVCTP, AVDTP, AVRCP-Target, BIPImagePush, BPP-SenderDev, DUN-GW, FT-Server, GAP, GAVDP, Headset-AG, HFP (1.5) AG, OPP-Client, OPP-Server profiles. In order for Bluetooth® devices to communicate with one another, they must utilize the same Bluetooth® profile. The experience icons identify devices that utilize the same profile(s), helping to ensure basic compatibility between such devices. However, certain advanced

Bluetooth features, including those listed, may not be supported by all devices featuring such icons, and/or the functionality of such features may be limited in certain devices, or by certain wireless carriers. Contact your wireless carrier about feature availability and functionality, or visit www.motorola.com for more details.

(4) All talk and standby times are quoted in Digital Mode, and are approximate. Battery performance depends on network configuration, signal strength, operating temperature, features selected, and voice, data and other application usage patterns.

(5) Worldwide roaming/connect globally where GSM and network coverage and roaming agreements are present.
