

# Smart, skilled and connected.

## Palm® Pixi™ Plus

### Smarter, simple.

The new Palm Pixi Plus phone features a thin design, fixed keyboard, and the Palm webOS™ operating system, making it easy to say whatever you want in an instant. See contact information linked together from online sources in the same view. Flip from one open app to another using the touchscreen and intuitive gestures.

### More to talk about.

The Palm Pixi Plus is loaded with the features to make your professional life productive while on-the-go.

- Access to over 25,000 AT&T Wi-Fi Hot Spots\* nationwide.
- Run multiple applications and activities at once. No opening and closing an app to do more than one activity; it works just like your desktop.
- AT&T's 3G network\*\* allows you to browse Web pages in full HTML and talk at the same time, plus download data at broadband speeds.

### Incredibly thin. Instantly conversational.

The incredibly thin design of the Palm Pixi Plus allows you to work fast and make a bold statement.

- This is the thinnest smartphone on the market today.
- The fixed QWERTY keyboard is built for fast email, messages and networking. The vivid touchscreen makes it easy to navigate apps more quickly.

### Always up-to-date with Synergy™.

Palm Synergy gathers contact and calendar information from places like LinkedIn®, Microsoft® Office Outlook® and Yahoo!® and puts it into one simple view.

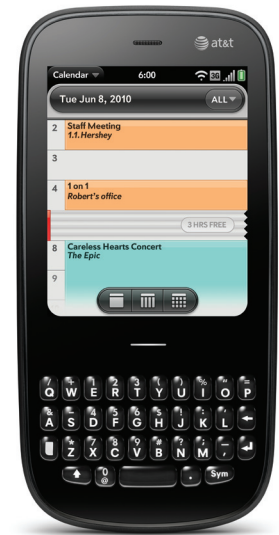

- View email, messages and event reminders without being completely interrupted. Incoming notifications appear on the screen, giving a quick snapshot of new information. You can respond or ignore with one touch.

### Powerful platform that's intuitive.

- Palm webOS uses multitouch gestures and a touchscreen, which makes navigation fast and easy. Zoom in or out on a page, move open apps around like cards in a deck, or close apps simply by flicking them off the screen.
- Automatically start searching the phone or the Web just by typing on the keyboard.
- Keep multiple apps open without losing your place. Move easily from one open app to another.
- Easily layer your Microsoft Office Outlook work calendar with your personal calendar from Yahoo or Google.

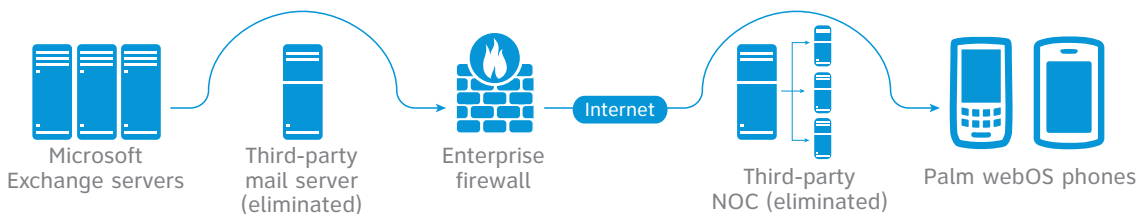

### Simpler path to business mobility.

- Seamless integration with Microsoft Exchange and support for standard security IT policies eliminates the need for unnecessary middleware or additional servers.
- Deploy mobile apps faster by leveraging existing C and C++ code via the new Plug-in Development Kit. Palm webOS apps are built using standard Web technologies and tools.
- Over-the-air software updates and device backups are handled automatically, keeping costs and complexity down. Regular Palm webOS updates extend the life of your mobile fleet by adding new functionality and features.

### Complete connectivity in a slim package.

† Requires AT&T Navigator service plan.

†† Limitations apply. With wireless coverage area only. Requires data services at additional costs.

**IMPORTANT INFORMATION:** 3G Coverage and other Coverage not available in all areas. Device subject to availability. This device is sold for use on AT&T's wireless systems. It may not be compatible with other wireless systems. Network speed is no indication of the speed at which your device sends or receives data. Actual speeds depend on distance from cell site, network availability and traffic, device, applications, tasks, file size and other factors. AT&T 3G download speeds only available in AT&T 3G markets. Specifications subject to change. Up to \$36 activation fee applies. Certain benefits and service features may require you to purchase additional hardware and/or software, obtain a network connection and/or pay monthly access and/or per use charges. Subscriber must live and have a mailing address within AT&T's wireless owned network coverage area. Availability, speed of delivery and timeliness of information is not guaranteed. Terms of service will vary based on selected service plans. Special credit and tenure restrictions and additional charges may apply to international roaming. Availability, quality of coverage and services while roaming are not guaranteed. Other conditions and restrictions apply. See business/service agreement, rate plan brochure(s) and coverage map(s) for details. Price and availability may vary by market and may not be available from independent retailers. Data Plan Required. **Early Termination Fee:** None if cancelled in the first 30 days, but up to \$35 restocking fee may apply to returns; thereafter up to \$325. Some agents impose additional fees. **Unlimited Voice Services:** Unlimited voice services are provided primarily for live dialog between two individuals. No additional discounts are available with unlimited plan. **Offnet Usage:** If your minutes of use (including unlimited services) on other carrier's networks ("offnet usage") during any two consecutive months or your data use during any month exceeds your offnet usage allowance, AT&T may at its option terminate your service, deny your continued use of other carriers' coverage, or change your plan to one imposing usage charges for offnet usage. Your offnet usage allowance is equal to the lesser of 750 minutes or 40% of the Anytime minutes included with your plan (data offnet usage allowance is the lesser of 24 MB or 20% of the MBs included with your plan). An eligible data plan is required. Palm, Pixi, Synergy, and the Palm and Pixi logos are among the trademarks or registered trademarks owned by or licensed to Palm, Inc.
