

htc Freestyle™

Finally, a phone that works for you

The HTC Freestyle™ is a phone that's all about staying connected. Keep in touch with HTC Sense™, the logical and friendly user experience that puts the people and information you care about right on top! Homescreen widgets provide quick access to application shortcuts, messages, social networking, weather and more with just a swipe or two and are customizable to meet your needs. Keep on point with a notification panel so you always know what's happening on your phone.

With Friendstream, see all your Facebook and Twitter updates in one place, comment and update your status quickly and easily. Link your favorite people with their Facebook profiles so their profile picture and status updates are integrated into their contact record. And, download apps to improve your productivity and games to entertain with AppCenter.

The 3.2" capacitive touch screen makes typing messages, web browsing, and interacting with your phone faster and easier. The HTC Freestyle is compact enough to fit anywhere, while the tough, yet beautiful metal uni-body construction can handle whatever your busy life can dish out!
